

Supported and Certified Devices

Alianza certified devices have been tested by Alianza and certified interoperable with the Cloud Voice Platform. Each device has a defined configuration and can be provisioned via Alianza or third party solutions. Alianza features are supported on the devices (if supported by the device). Some devices marked as ATAs are embedded in broadband modems/routers.

Alianza Status - Certified: supported device; Alianza provisioning available | Supported: supported device; third party provisioned | In process

Manufacturer	Model	Alianza Status	Provisioning Type	Secondary Function	Lines/Ports
ATA/EMTA					
Alvarion	BreezeMAX Si 4000	Certified		WiMAX Gateway	1
Arris	MG5225	Supported	Third-party	Cable Modem/DOCSIS 3/WiFi Router/DVR	2
Arris	TG852G	Supported	Third-party	Cable Modem/DOCSIS 3/WiFi Router	2
