

## Supported and Certified Devices

Alianza certified devices have been tested by Alianza and certified interoperable with the Cloud Voice Platform. Each device has a defined configuration and can be provisioned via Alianza or third party solutions. Alianza features are supported on the devices (if supported by the device). Some devices marked as ATAs are embedded in broadband modems/routers.

Alianza Status - Certified: supported device; Alianza provisioning available | Supported: supported device; third party provisioned | In process
