

Clearcable

PARTNER SOLUTION BRIEF

STREAMLINED OPERATIONS WITH CLEARCABLE

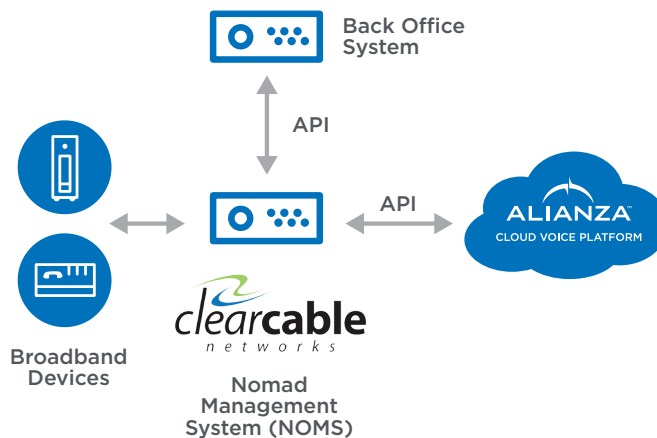

Clearcable and Alianza have partnered to dramatically simplify VoIP management, accelerate time to revenue and reduce the cost of delivering cloud communications.

Clearcable's NOMS is a comprehensive and versatile interface for enabling automated provisioning of network elements including cable modems, embedded multimedia terminal adapters, optical network units, and VoIP platforms directly from customer management and billing systems. Alianza's Cloud Voice Platform provides a turnkey VoIP solution that enables broadband providers to deliver a full suite of voice and unified communication services to homes and businesses.

Together, Alianza and Clearcable deliver an integrated, flow-through provisioning solution for broadband and phone services.

Benefits

- Accelerates customer provisioning and activation
- Reduces swivel chair, manual operations
- Reduces operational and support costs

TECHNOLOGY PARTNERS

INDEPENDENT
SOFTWARE VENDOR

“It’s a partnership focused on platform integration, best practices and excellent customer service. We are both keen on removing complexity and creating the simplest operating environment for service providers.”

RYAN MCCANN | Clearcable

PROVEN INTEGRATED SOLUTION

Service provider staff can now enter, update and retrieve customer information in a single back-office platform and seamlessly provision residential and business cloud communications. Flow-through provisioning between the platforms is supported via APIs and reduces swivel chair management while improving operational efficiency.

The use cases include:

- Create accounts on Cloud Voice Platform (flow-through from back-office systems)
- Adds users and devices on Cloud Voice Platform
- Sets default call features on devices
- Supports multiple device protocols simultaneously to enable staged migrations

ABOUT CLEARCABLE

Clearcable, located in Hamilton, Ontario, is a specialized consulting engineering firm firmly focused on the needs of mid-market broadband service providers and the development of new residential and business services products in Canada and United States. Founded in 2004, Clearcable provides expert help to enable appropriate technology and services for advanced communications by augmenting the existing or building the internal engineering support for its client base. With proven experience and relevant industry references, Clearcable understands the unique requirements facing service providers, consumers, and small businesses and ensures they stay in control of their business and connected to communications.
